

EU AI Act Compliance Starter Kit

Getting started in 5 steps — estimated time: 4-6 hours for up to 5 AI systems

KIT CONTENTS			
1	AI System Inventory (Excel)	ORIENT: Observe	List all your AI systems
2	Risk Classification Worksheet (PDF)	ORIENT: Risk	Determine risk level per system
3	EU AI Act Compliance Assessment (Excel)	ORIENT: Evaluate	Identify compliance gaps
4	Compliance Roadmap (Excel)	ORIENT: Navigate + Track	Plan remediation actions

WORKFLOW

This kit follows the HEXIS ORIENT methodology: Observe (inventory) → Risk (classify) → Identify (map obligations) → Evaluate (assess gaps) → Navigate (plan actions) → Track (monitor)

HOW TO START

- Step 1

Open the AI System Inventory (Excel) and list every AI system your organisation uses or provides. Fill in System ID (AI-001, AI-002...), system name, vendor, department, and EU market status.
- Step 2

Print the Risk Classification Worksheet (PDF) and complete one worksheet per AI system. Follow the decision tree on page 1. Copy the resulting risk level into the Inventory's Risk Level column (K).
- Step 3

Open the Compliance Assessment (Excel). For each system, create rows in the Gap Assessment sheet — one row per obligation area. Use the Obligations Map sheet to identify which obligations apply to your risk level.
- Step 4

Transfer Non-Compliant and Partially Compliant items from the Assessment into the Roadmap (Excel). Break each gap into specific actions, assign owners, and set target dates aligned with EU AI Act deadlines.
- Step 5

Use the Roadmap Dashboard to track progress. Review monthly. Update the Assessment periodically as remediation progresses. Keep all four templates as your living compliance record.

DATA TRANSFER BETWEEN TEMPLATES		
Inventory → Risk Worksheet	System ID (col A) + System Name (col B) → Worksheet header fields	
Risk Worksheet → Inventory	Classification result → Risk Level column (col K) in Inventory	
Risk Worksheet → Assessment	Risk Level → Risk Level column (col C) in Gap Assessment	
Inventory → Assessment	System ID (col A) + System Name (col B) → columns A-B in Gap Assessment	
Assessment → Roadmap	Non-Compliant/Partial items → Action rows. Copy: System ID, Obligation Area, Priority	

KEY DEADLINES

IN FORCE	Prohibited practices (Art. 5) + AI literacy (Art. 4)	Since 2 Feb 2025
IN FORCE	GPAI obligations (Chapter V)	Since 2 Aug 2025
UPCOMING	High-risk systems — Annex III	2 Aug 2026
UPCOMING	High-risk systems — Annex I (product safety)	2 Aug 2027
